---

## SUMMARY

Southern California-based full stack software developer that wants to make the world a better place through code. I am passionate about work that requires problem solving and creativity, as well as being a part of a team that feels the same way!

## SKILLS

**Languages** - JavaScript, Python, HTML, CSS | **Database** - Mongoose, MongoDB, SQL, PostgreSQL | **Libraries and Frameworks** - Node.js, React.js (Class-based and Hooks), Express.js, Django, Django REST Framework  
**Other** - Git, GitHub, Git Bash, Heroku, Fetch, Axios, CSS Flexbox, CSS Grid, Zoom, Slack

## SOFTWARE DEVELOPMENT PROJECTS

January 2022 - July 2022

**Dots and Boxes** | Two-player strategy game application

- Functional, intuitive, and bug-free application built in one week using HTML, JavaScript, and CSS.
- Used Git for version control during production and deployed to GitHub Pages.
- Incorporated advanced web design techniques such as DOM manipulation, CSS Grid, gameplay loops, and more.

**SpaceBar** | Full stack online social media application

- Fully-featured and user-friendly application co-developed in two weeks using React.js, Express.js, and MongoDB.
- Used Git for version control in a team of three and deployed to Heroku.
- Included complex features like React Hooks, User Authentication, and CSS Flexbox and Grid.
- Successfully tested and integrated both custom and third-party RESTful APIs with Postman and Fetch and Axios with the front-end for additional functionality.

**ReCast** | Full stack movie recasting social media application

- Comprehensive and complex multi-page application developed in three weeks using Django REST Framework, PostgreSQL, and React.js.
- Used Git for version control, Git Bash for workflow and debugging, and deployed to Heroku.
- Incorporated complex features and techniques like React Hooks and Effects, custom API calls, and ForeignKeys.
- Made RESTful API calls with Fetch from the front-end to both a custom back-end and third-party APIs for a vast combined database, connected successfully after deploy.

## PROFESSIONAL EXPERIENCE

**Product Merchandiser**, Scotts Miracle-Gro | Oceanside, CA

Apr 2021- July 2022

- Increased sales by up to five percent weekly by working as both a delegator and a participating member of a team to negotiate with up to five different store managers a week.
- Provided customer service to meet or exceed both Scotts Miracle-Gro's and the individual store's standards.
- Built a reputation of punctuality and reliability among coworkers and store staff alike.

**Delivery Driver**, Varsity Sports Cafe | Omaha, NE

June 2019 - March 2020

- Handled order preparation, delivery logistics, and payment calculation for up to fifteen orders daily.
- Conducted work in a safe manner in the car and in the kitchen amounting to zero workplace incidents.
- Provided excellent customer service both in person and over the phone.

## EDUCATION

**Software Engineering Immersive**, General Assembly | Remote

January 2022 - July 2022

Full-stack software engineering immersive student in an intensive, 24-week, 450+ hour program focused on product development fundamentals, object-oriented programming, MVC frameworks, data modeling, and team collaboration strategies. Developed a portfolio of individual and group projects.
